Machinery Maintenance: Professional repair & maintenance services for the food industry.

FESS Group Ltd provide specialist maintenance and repair services to ensure that your production machinery operates at optimum efficiency, accuracy, and speed.

We understand how disruptive it can be when machinery breaks down, and the knock-on effect it has on production and processing.

Machinery maintenance plays a key preventative role for food manufacturers that saves time, money, and the unnecessary stress that comes with breakdowns and equipment not delivering at optimal performance.

Our machinery maintenance service helps minimise and avoid disruption and unexpected downtime which can put workers and consumers at risk.

Maintenance Service:

From one-off machinery repairs to ongoing maintenance support packages, we provide a solution to fit all food manufacturers regardless of their size or specialism.

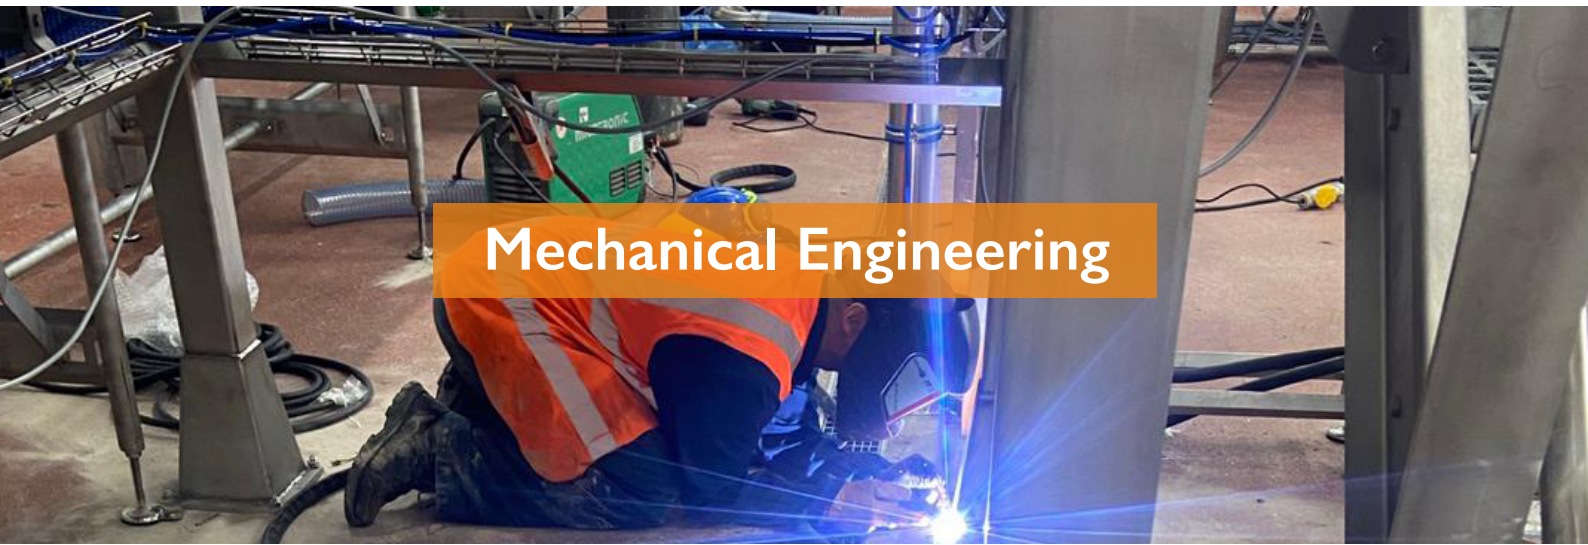

Our team of qualified engineers has extensive experience working in a wide variety of food manufacturing settings and will work with you to ensure minimal disruption, as well as provide clear and regular communication every step of the way. When we work with you, you'll get access to our skilled support team, offering you the very best in efficiency and professionalism.

What's included in your machine maintenance package?

- Regular inspections and the systematic changing of parts
- Calibration and optimisation of assets
- 24/7 call out availability
- Dedicated customer careline
- Training for onsite staff
- Buddying scheme available

“

David and the group of engineers he had on site were excellent. They all worked professionally and methodically during the duration of the project. We were in safe hands from the beginning and we knew the project would be pulled off from start to finish. We are grateful for them to be part of the project and would work with them again moving forward.

Sam Sheffield, Production Manager

“

The installation work carried out by FESS is to a high standard. I'd like to thank you and your team for a professional and speedy approach to the installation and look forward to working with you again in the future

Graham Bell, Thistle Seafoods Ltd
